RDM - ROTARY COPE AND STICK DOOR CLAMP

Door Master Model RDM is a five section Rotary Door Clamp for Cope and Stick Doors (90°). The RDM is designed for quick and accurate assembly, clamping and squaring of your cabinet doors.

CHARACTERISTICS & OPERATION

The five section Door Master for Cope and Stick Doors (90°) is available in two models:

- **RDM:** suitable for assembly of large pantry doors up to 30" x 72" down to drawer fronts of 5 1/2" x 12 1/2". Standard model has three clamps per section.
- **RDM2:** suitable for double door assembly up to 30" x 48" down to drawer fronts of 5 1/2" x 12 1/2". Standard model has five clamps per section.

Built on an Industrial strength welded tubular frame, the Door Master RDM and RDM2 feature "no compromise" pneumatics - brand name air valves and real double action air cylinders, and a gear motor for counterclockwise rotation of its sections.

- Effortless Setups;
- Automatic Sections Indexing.
