PMC-HD AND PMC-HD-2 HEAVY DUTY STROKE BELT SANDER AND POLISHER

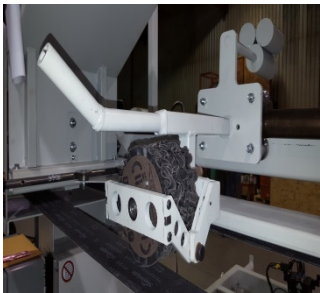

PMC-HD and **PMC-HD-2** Stroke Belt Sander and Polisher Heavy Duty Models are built around a welded structure, for a long lasting durability. They feature dust hoods on both sides, a table with steel rollers and virtually wear free balanced and quiet running aluminium pulleys. All models are equipped with a magnetic starter (overload protection), adjustable beds, a full tracking unit and belt guards. Pulley dimensions are 10" diameter by 6.25" face. Travelling bar with friction pad are included. The table is covered with HDPE plastic surface, has motorised vertical adjustment of 24", and its weight capacity is 1000 lbs.

Model	Table Size	Abrasive Belt	Motor / Voltage	Horizontal Adjustment	Overall (Length-Width-Height) +/- 1/8"
PMC-264-6-HD	30" x 96"	6" x 264" 4750 ft./min.	5 HP 220-440-550	36 1/4"	139" x 67 1/2" x 53 3/8"
PMC-312-6-HD	30" x 120"	6" x 312" 4750 ft./min.	5 HP 220-440-550	36 1/4"	163" x 67 1/2" x 53 3/8"
PMC-360-6-HD	30" x 144"	6" x 360" 4750 ft./min.	7.5 HP 220-440-550	36 1/4"	187" x 67 1/2" x 53 3/8"

These models are also available in Dual Belt. Allow the user to operate with two different grits at one time. Add **-2** at the end of code.
