## MANUAL CLAMP CARRIER

Standard Clamp

Rapid change

Built around a sturdy tubular steel frame, the **Doucet SRM Manual Clamp Carrier** is entirely modular, allowing an easy upgrade to the SRH (Hydraulically Powered Clamp Carrier) model as your production needs grow. The carrier is equipped with a front rest, and anti-backup device and is offered with the same clamps as the hydraulically powered unit. Doucet clamps are the sturdiest and the heaviest in the industry. They are made of welded steel channels 2" X 1" on both sides, a stationary front jaw and a mobile rear jaw. The clamps slide across the section's support bracket for an easy adjustment to your panel width.

### FEATURES AND SPECIFICATIONS

<b>FRAME</b>	<ul style="list-style-type: none"> <li>• "A" TYPE TUBULAR STEEL</li> </ul>
<b>CLAMPS</b>	<ul style="list-style-type: none"> <li>• 32" OPENING CAPACITY WITH 2 1/2" AND 3 1/2" JAWS</li> <li>• ADDITIONAL OPENING CAPACITY AVAILABLE IN INCREMENTS OF 2" UP TO 52"</li> <li>• "T" HANDLES OR BUTTERFLY NUTS</li> <li>• CHOICE OF RAPID CHANGE OR STANDARD CLAMPS</li> </ul>
